P. Conclusion

1. An effort has been made to make the Criteria exhaustive – however it is possible that in the course of the application of the Criteria anomalies arise. In such a case/s the interpretation of the NRAI of such anomalies would be final and binding on all.
2. The Selection Committee/or any other committee so empowered by the Governing Body of the NRAI would base their selection of individuals /teams for participation in International Competitions, largely on the basis of the rankings derived by the Moving Average Method - as stated in this Criteria.
3. However, in extraordinary circumstances, with justification, in writing, the committee would have the authority to deviate from the results of the MAM and under all circumstances the decision of the Selection Committee /NRAI would be final and binding on all concerned parties.
